

Introduction to AngularJS: Objectives and Outcomes

In this lesson you will be given a quick overview of JavaScript frameworks and then introduced to AngularJS in particular. We will learn some basics of Angular and how to configure an Angular application. You will also encounter several Angular directives. At the end of this lesson, you will be able to:

- Configure an Angular application
- Use Angular directives like ng-app, ng-init, ng-model, ng-repeat within an Angular application.
