

# Objectives and Outcomes | Coursera

## Notifying the User: Objectives and Outcomes

In this lesson, you will continue to explore Cordova plugins and the ngCordova wrappers around the plugins. In particular you will learn about leveraging the notification capabilities of the mobile devices. At the end of this lesson, you will be able to:

- Use the Cordova plugin and ngCordova wrapper to enable the application to manage notifications delivered through the notification bar of the device
- Use the Cordova plugin and ngCordova wrapper to enable the showing of a short message on the screen using Toast.
