Assignment: Assignment 3: Single Page Applications

Submit by January 31, 11:59 PM PT

Important Information

It is especially important to submit this assignment before the deadline, January 31, 11:59 PM PT, because it must be graded by others. If you submit late, there may not be enough classmates around to review your work. This makes it difficult - and in some cases, impossible - to produce a grade. Submit on time to avoid these risks.

Instructions (/learn/angular-js/peer/GqCdN/assignment-3-single-page-applications)

My submission (/learn/angular-js/peer/GqCdN/assignment-3-single-page-applications/submit)

Copy and paste the code showing the implementation of the getLeaders and the getLeader functions in services.js in the text box below

```
corpfac.getLeaders = function(){
    return leadership;
};

corpfac.getLeader = function (index) {
    return leadership[index];
};
```

Copy and paste the code for the getPromotion function in the text box below:

```
this.getPromotion = function (index) {
    return promotions[index];
}
```

Copy and paste the code for the IndexController function in the text box below:

```
.controller('IndexController', ['$scope', 'corporateFactory', 'menuFactory', function($scope, corporateFactory, menuFactory) {
    $scope.execChef = corporateFactory.getLeader(3);
    $scope.featuredDish = menuFactory.getDish(0);
    $scope.featPromotion = menuFactory.getPromotion(0);
}])
```

Copy and paste the code for the AboutController function in the text box below:

```
.controller('AboutController', ['$scope', 'corporateFactory', function($scope, corporateFactory) {
    $scope.corpLeaders = corporateFactory.getLeaders();
}])
```

Copy and paste the code from aboutus.html that constructs the information for the corporate leaders, in the text box below:

```
<ul class="media-list">
  <li class="media" ng-repeat="leader in corpLeaders">
    <div class="media-left media-middle">
      <img class="media-object img-thumbnail" ng-src={{leader.image}}>
    </div>
    <div class="media-body">
      <h3 class="media-heading">{{leader.name}}
        <small> {{leader.designation}}</small>
      </h3>
      <p>{{leader.description}}</p>
    </div>
  </li>
```

```
        </ul>
```

Copy and paste the code (the media objects) from home.html that constructs the information for the featured dish, featured promotion and executive chef , in the text box below:

```html
<!--  -------------------- Featured dish -------------------- -->
    <div class="col-xs-12 col-sm-9 col-sm-pull-3">
        <div class="media-left media-middle">
            <img class="media-object img-thumbnail" ng-src="{{featuredDish.image}}">
        </div>
        <div class="media-body">
            <h3 class="media-heading">{{featuredDish.name}}
                <span class="label label-danger">{{featuredDish.label}}</span>
                <span class="badge">{{featuredDish.price | currency}}</span>
            </h3>
            <p>{{featuredDish.description}}</p>
        </div>
    </div>

<!--  -------------------- Featured promotion -------------------- -->
    <div class="col-xs-12 col-sm-9">
        <div class="media-body">
            <h3 class="media-heading">{{featPromotion.name}}
                <span class="label label-danger">{{featPromotion.label}}</span>
                <span class="badge">{{featPromotion.price | currency}}</span>
            </h3>
            <p>{{featPromotion.description}}</p>
        </div>
        <div class="media-right media-middle">
            <img class="media-object img-thumbnail" ng-src="{{featPromotion.image}}">
        </div>
    </div>

<!--  -------------------- Executive Chef -------------------- -->
    <div class="col-xs-12 col-sm-9 col-sm-pull-3">
        <div class="media-left media-middle">
            <img class="media-object img-thumbnail" ng-src="{{execChef.image}}">
        </div>
        <div class="media-body">
            <h3 class="media-heading">{{execChef.name}}
                <small> {{execChef.designation}}</small>
            </h3>
            <p>{{execChef.description}}</p>
        </div>
    </div>
```
